Aspiring software developer with hands-on experience in full-stack web development and mobile application development. Passionate about transforming innovative ideas into functional applications. seeking to contribute to innovative projects that enhance user experiences and drive technology forward.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Govind Ballabh Pant Institute of Engineering and Technology, Pauri, Uttarakhand

July 2021 - June 2024

65%

Diploma in Electrical Engineering

Rudrapur Institute of Technology, Rudrapur, Uttarakhand

July 2016 - June 2018

75.35%

PROFESSIONAL EXPERIENCE

Web Development Intern | The Spark Foundation | Remote | [→Certificate Link](#)

May 2023 - June 2023

- Developed and maintained responsive web pages ensuring user-friendly interfaces.
- Implement basic front-end features using HTML, CSS, JavaScript with a focus on clean, organized code.
- Worked in a structured development environment, applying problem-solving techniques.

SOFTWARE PROJECTS

Hospital Management System | Node.js, React.js, Express.js, MongoDB | [→ GitHub Link](#)

September 2024

- Created a Hospital Management System where users can register, log in, and **book appointments** based on the availability of doctors.
- Incorporated **JWT and bcrypt** for secure user authentication, ensuring robust data privacy and security for all users.
- Built an **admin dashboard** where administrators can efficiently manage doctors and appointments, including the ability to add new doctors or admins, approve or delete appointments, and oversee system operations.
- Designed a responsive and user-friendly interface **inspired by Narayana Health's website**, utilizing **Tailwind CSS and DaisyUI** for seamless and modern UI/UX
- Leveraged REST APIs for data fetching, and applied **MongoDB, Node.js, and Express.js** on the backend, showcasing proficiency in **full-stack development** and asynchronous programming.

Banking Web app | Node.js, React.js, Express.js, MongoDB, Tailwind CSS, DaisyUI | [→ GitHub Link](#)

June 2024

- Developed a banking application where users can securely create accounts, view transaction history, and transfer money, ensuring smooth and efficient financial operations.
- Designed a visually appealing and responsive interface using Tailwind CSS and DaisyUI, focusing on creating an intuitive and modern user experience.
- Implemented comprehensive features like a transactions page and money transfer functionality, enhancing user interaction with real-time feedback and streamlined navigation.

Personal Finance Tracker [→ GitHub Link](#)

March 2024

- Created a Simple, beautiful and Interactive personal finance tracking **mobile application** built using Flutter that allows users to manage and track their personal expenses to manage and categorize expenses effectively. Utilized **Flutter, Dart** for dynamic expense management. also providing summaries and statistical insights into their financial habits.

SKILLS

Programming Language: C/C++, Python, Dart.

Frontend: React.js, HTML, CSS, JavaScript, Flutter.

Backend: Node.js, Express.js, MongoDB.

Coursework: Data Structures, Object-Oriented Programming, Web Development

Soft Skills: Leadership, Team Work, Decision Making, Problem Solving.

CERTIFICATION

100 Days of Code: The Complete Python Pro Bootcamp for 2023 [→Certificate link](#)
